

## Quality Policy

Hivolt Capacitors serves a worldwide market, specialising in the design and manufacture of custom built high voltage capacitors. These are used in a variety of applications including X-ray power supplies, RF transmitters, laser, radar and pulse equipment, linear accelerators and general high voltage power supplies.

At Hivolt Capacitors Limited, we strive to ensure that Customer Satisfaction is the aim at every level throughout the organisation and that employees have a proper understanding of their role in contributing towards this aim

To this end the Quality Management System (QMS) is run in line with BS EN ISO 9001:2015 and has the full commitment of the management and employees to ensure that it is implemented and maintained.

Continual Improvement of the QMS is a key aim for the company. Important elements that contribute to this aim include regular auditing, system reviews, the establishment of improvement objectives and the provision of adequate resources to achieve these.

We supply essential components to many high-profile companies and all employees are made aware of the necessity of reliability and long life of our products, which can only be achieved by excellence in quality. This policy is communicated to all employees.

The ultimate aim is to supply product that satisfies customer requirements.

**Mr. B Mc Keever**
